

# THERMAL TRANSFER RIBBONS FOR 64-0X SERIES LABEL PRINTERS

Providing the best printing results for high speed and high volume applications to increase performance within any industry.

## IDEAL FOR HIGH VOLUME LABEL PRINTING

To meet the tough demands of industrial applications, the high-performance, durable tabletop printers of the 64-series come in 4, 5, 6, and 8" print widths. With a print speed of up to 16 in/sec, the 64-series printers operate faster than any other printer in the marketplace and therefore become the best choice for increasing productivity and reducing expensive operator time in industrial applications such as logistics, distribution centers, industrial and retail applications.
